

Research Assistantship

for eligible students interested in postgraduate studies in Germany

Ingenieurbüro GbR

Students who are interested in pursuing a Masters degree in Electrical Engineering, Computer Engineering/Computer Science or Applied Mathematics at a German University with specialization in one of the areas – Hardware, Software, Image Processing (2D and 3D), Robotics, Automation and Control may sponsor their studies via a research assistantship in our company.

Hengen Ingenieurbüro is an engineering firm near the city of Karlsruhe, dealing with R&D in the areas of digital signal and image processing for medical applications and robotics as well as soft- and hardware-development. We offer students interested in studying at the universities of Kaiserslautern or Karlsruhe the possibility to finance their stay in Germany via a research assistantship in our company during a two-year internship phase. We comprise of a team of highly qualified professionals who can assist you in charting out an academic plan and introduce you to a number of real-world applications parallel to your studies. Apart from your lectures, your practical internship will aid you in gaining hands-on experience in different areas as well as apply complex theoretical fundamentals to interesting projects.

„Nice to have“ : Good knowledge of written and spoken German and fundamentals of Software- and/or Hardware-Development.

Please send your **application via Email** to nhengen@hengen.eu

Your application should contain the following details:

- *A tabular resume with a photograph*
- *Information about schooling and undergraduate studies including certificates and list of lectures*
- *Further information about capabilities, programming knowledge and job experience*

Please note that the number of interns we are looking for is limited and that the offer holds only for a masters degree pursued at one of the above mentioned universities.

The application procedure at the university is independent of the application as an RA/intern in our company.
